- Managing the environmental impact of SANSU AQUATEK's operations is of paramount importance to us, and we aspire to conduct our operations, and design to manage our properties in a way that aligns with this goal. SANSU AQUATEK commits to:

  - Climate Change Adaptation: Seek to assess the impact of various climate-related events and changes in climatic conditions on the business operations or due to business operations so as to take appropriate measures.

  - Energy and Fuel Consumption, and Greenhouse Gas Emissions: Strive to conservatively use the energy, fuel and ensure reduction in greenhouse gas emissions.

  - Waste Management: Endeavour to responsibly dispose waste in accordance with Government regulations with respect to managing hazardous and non-hazardous waste, reuse, recycling and composting.

  - Water Consumption: Encourage prudent and efficient usage of water and minimize wastage of water during construction and to promote efficient water consumption amongst the tenants and end users.

  - Biodiversity and Habitat: Strive to minimize the impact on biodiversity at our project sites.
